Concise Guide To Macroeconomics Moss

Although a Harvard Business School professor (and thus, if reputation is to be believed, about as educated as one can come) Mr. Moss is extremely clear that macroeconomics is not a precise science, most macroeconomic theories do not slide seamlessly into successful practice in real life, the reasons behind macroeconomic situations (i.e. currency collapses, recessions, sharp inflation, etc.) can be ambiguous and arguable, and macroeconomic monetary and fiscal policies (such as interest rate ...

Scalab | Recommended Literature

BGIE’s first module emphasizes issues and concepts in macroeconomic policy and international economics. Although each class session will focus on a substantive case, we will also refer to the textbook A Concise Guide to Macroeconomics, by David Moss. The book is well written, concise, and clear, and it is ideally suited for the BGIE curriculum.

Required reading prior to first class

Hey WSO, I'm interested in learning how financial markets and the overall economy work together. For example, I'd like to better understand the fundamentals of all markets and their relation to the overall economy. I have been trying to gain an intuitive understanding of how economies work, but there are too many books to choose from and many don't seem to talk about the interconnectedness of ...
