Efficiency, Justice and Care: Philosophical Reflections on Scarcity in Health Care

Efficiency, Justice and Care: Philosophical Reflections on ...

This complexity can be represented as an inconsistent triad, a set of three propositions of which any two are compatible but which together form a contradiction. In the case of health care, the three rival values are: social efficiency, justice, and decent-quality care. It seems to be that we can have any two but not all three.

Efficiency, Justice and Care: Philosophical Reflections on Scarcity in Health Care

Health Care Needs and Distributive Justice: Philosophical ...

If it is a requirement of social justice, we should be clear about what kinds of care we owe people and how we determine what care is owed if we cannot possibly meet every health need, as arguably no society can. We should be clear about what constitutes appropriate access to that care, given that there are diverse barriers to access.

Justice and Access to Health Care (Stanford Encyclopedia ...

The principle of justice could be described as the moral obligation to act on the basis of fair adjudication between competing claims. As such, it is linked to fairness, entitlement and equality. In health care ethics, this can be subdivided into three categories: fair distribution of scarce resources (distributive justice), respect for people ...

Book Review Cardiovascular Disease & Society Health Affairs Vol.26 No.1 Health Care And Philosophy: Adding Justice To The Debate

Health Care And Philosophy: Adding Justice To The Debate ...

The two principal monistic theories of law are the utilitarian efficiency theory and the Kantian-Aristotelian theory of right or justice, based on the foundational norm of equal individual freedom, which asserts that the purpose of tort law is and should be just compensation and deterrence. It is clear that the equal freedom theory, rather than the utilitarian efficiency theory, provides the ...

Right, Justice, and Tort Law - Oxford Scholarship

Health care is a highly complex, dynamic, and creative sector of the economy. ... Decisions may be guided by four concept models based on ethical and distributive justice: libertarian, communitarian, egalitarian, and utilitarian. ... The excess use of methods and tools without fully defining the basic goals and philosophical principles of the ...

Health economics, equity, and efficiency: are we almost there?

Many countries tightly ration access to publicly funded fertility treatments such as in vitro fertilisation (IVF). One basis for excluding people from access to IVF is their body mass index. In this paper, I consider a number of potential justifications for such a policy, based on claims about effectiveness and cost-efficiency, and reject these as unsupported by available evidence.
