Re: Simplivity 380 Backup Sorry for the delay in answering this @mogicz. 1 - In HPE SimpliVity, a backup is a first-class object and in every way a copy of the parent VM. If you have a backup you need to restore, you can restore it locally and overwrite the existing VM, restore in parallel using a new name, or restore remotely.

Simplivity 380 Gen10 Fan Noise. We are currently deploying HPE Simplivity nodes to some new offices this year. When we got them racked and turned on some of our offices complained that the 2 new nodes were really loud and then we noticed that the fans were constantly running around 60%. Looking at the BIOS settings the Fan setting is set to Increased Cooling which makes the fans run higher.
