All in all, the Sony SXR D 50 (it also comes in a 60 inch screen) is an awesome HDTV with a large range of features and high quality screen. I might just keep it." - Thom McCann

HD Beat Reader Review: Sony's 50-inch SXR D | Engadget

When Sony debuted its \$27,000 SXR D (Silicon X-tal Reflective Display) front projector a couple of years back, my first thought after drooling over its fine, filmlike picture was: They'll really have something if they can get this technology into a TV that sells for a few thousand dollars. Well, that something has arrived: the 50-inch KDS-R50XBR1 is an SXR D-based rear-projection HDTV that lists ...

Sony KDS-R50XBR1 50-inch SXR D HDTV | Sound & Vision

The 50" KDS-50A2000 is the lowest-priced TV ever to feature Sony's groundbreaking SXR D — Silicon X-tal (Crystal) Reflective Display — projection technology. SXR D is a refined version of LCoS (Liquid Crystal on Silicon) display technology. Most videophiles and reviewers agree that SXR D delivers the finest picture quality currently available.
