## How to Find Book Value of a Debt on a Balance Sheet ...

The net debt is the market value of debt minus cash. A company acquiring another company keeps the cash of the target firm, which is why cash needs to be deducted from the firm's price as ...

### Enterprise Value - EV Definition

The formula for the market value of debt is  $E((1-(1/(1 + R)^Y))/R) + T/(1 + R)^Y$ , where E is the annual interest expense, R is the cost of debt, T is the total debt and Y is the average maturity, in years, of the debt. However, calculating the market value of debt can be tricky, because not many firms carry their debt in bond form.
