Version 1.11.0 History

The first port of JUnit to C++ was done by Michael Feathers. His versions can be found on the XProgramming software page. They are os-specific, so Jerome Lacoste provided a port to Unix/Solaris. His version can be found on the same page. The CppUnit project has combined and built on this work. Usage

The CppUnit test  
framework is for unit  
test of C++ class  
functions. It relies on  
the hierarchy of a test  
suite comprising of unit  
test cases which test  
class functions. The
