World Investment Report 2017 Unctad

Investment in developing countries declined even more, by 14 per cent, and flows to LDCs and structurally weak economies remain volatile and low. Although UNCTAD predicts a modest recovery of FDI flows in 2017–2018, they are expected to remain well below their 2007 peak.

World Investment Report 2017 | UNCTAD

Global flows are forecast to increase to almost \$1.8 trillion in 2017, continuing to \$1.85 trillion in 2018 – still below the 2007 peak. Policy uncertainty and geopolitical risks could hamper the recovery, and tax policy changes could significantly affect cross-border investment. [Read More](#).

World Investment Report | World Investment Report 2017

WORLD INVESTMENT REPORT2017 - UNCTAD

Although UNCTAD predicts a modest recovery of FDI flows in 2017–2018, they are expected to remain well below their 2007 peak. This year's World Investment Report subtitled Investment and the Digital Economy. It shows that the digital economy is having a major impact on global patterns of investment, and provides important insights on the implications of the digital economy for investment policies designed for the analogue era, as well as suggests how investment policy can support digital ...

World Investment Report 2017 - UNCTAD Investment Policy Hub

The Trade and Development Report 2017 argues that now is the ideal time to crowd in private investment with the help of a concerted fiscal push – a global new deal – to get the growth engines revving again, and at the same time help rebalance economies and societies that, after three decades of hyperglobalization, are seriously out of kilter. However, in today's world of mobile finance and liberalized economic policies, no country can do this on its own without risking capital flight ...

Trade and Development Report 2017 | UNCTAD

World Investment Report 2017. ... UNCTAD estimates the total investment costs associated with universal coverage in developing countries at less than \$100 billion. Government support and forms of public-private partnerships will be needed for universal connectivity, including in thinly populated and low-income areas. ...

This number is lower than in the preceding year but higher than the 10-year average of 49 cases per year (2006–2015). As of 1 January 2017, the total number of publicly known claims had reached 767. So far, 109 countries have been respondents to one or more known ISDS claims.

World Investment Report | Chapter 3 -Investment Policy Trends

The 2017 UNCTAD business survey results indicate renewed optimism about FDI prospects. Unlike in 2016, a majority of the executives polled, particularly in developed economies, are confident that the economic upturn will strengthen, prompting increased investment in the coming years (figure 2).

World Investment Report | Chapter 1 - Global Investment ...

INVESTMENT AND NEW INDUSTRIAL POLICIES. Global flows of foreign direct investment fell by 23 per cent in 2017. Cross-border investment in developed and transition economies dropped sharply, while growth was near zero in developing economies. With only a very modest recovery predicted for 2018, this negative trend is a long-term concern for policymakers worldwide, especially for developing countries, where international investment is indispensable for sustainable industrial development.
